**RECEIVED**

**FEB 23 2004**

**Technology Center 2600**

Sir:

**Scott Hinson**, being duly sworn, deposes and says:

1. My name is Scott Hinson.
2. I am the inventor in the above-identified patent application.
3. I have reviewed the amendments to the specification proposed in the Amendment B prepared by Applicant's attorney.
4. The amendments to the specification made in the proposed Amendment B to the specification are an accurate description of my invention as it was conceived and reduced to practice prior to the original filing date of July 23, 2001.
5. It is my opinion that the amendments to the specification proposed in Amendment B do not enter new matter in the specification. These additions merely rephrase the description in the originally filed specification or explicitly describe those aspects of the invention that were inherent in the description as filed, such inherencies being readily apparent to those of ordinary skill in the art at the time the invention was made.

**FURTHER DECLARANT SAYETH NOT.**

  
Scott Hinson

Date: February 17, 2004
